**DETAILED ACTION**

*Allowable Subject Matter*

Claims 1-21 are allowed.

The following is an examiner's statement of reasons for allowance:

As to Claim 1, the prior art of record taken alone or in combination, fails to disclose or render obvious the optical fiber link receiving an optical probe signal from said optical source via said optical circulator and an optical test signal , whose spectrum is measured from an external source via said optical access; said probe signal is input into said optical fiber link at said first end of said optical fiber link, said test signal is input into said optical fiber link at a second end of said optical fiber link that is opposite to said first end of said optical fiber link, in combination with the rest of the limitations of the claim.

As to Claim 17, the prior art of record taken alone or in combination, fails to disclose or render obvious optimizing a polarization alignment of the probe signal with the polarization alignment of the test signal, interacting the probe signal with the test signal to generate an output signal, routing the probe signal and the output signal by an optical circulator, in combination with the rest of the limitations of the claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
